

Price list *of* *standard services*

We keep our prices at market level. You pay for work done, not for air — not for a retainer that hides the month when nothing happened.

The price list is indicative

The amounts shown apply to individual standard tasks. What a month costs in your case depends on the total volume of documents, the number of employees and the scope of the agenda — that only shows over your own paperwork.

We name the exact figure after the meeting

The no-obligation consultation takes 45 minutes and costs nothing. We go through what we would be taking over, and you leave with a figure that will not change from month to month on a whim.

- All prices are exclusive of VAT

What it comes to altogether

The price list is valid from 1 September 2026 and is for information only; the binding price is the one agreed in the contract. Non-standard work — reconstruction of neglected books, representation during an audit, extraordinary closings — is priced individually according to its scope.
